Updated January 2019

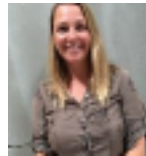

This guide was created by Carsten Søndersø Riemann, the training supervisor associate for the students at ISB. The students will get acquainted with Carsten and UU Billund during M9 and M10.

Presentation of UU Billund

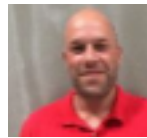

Lars Stampe

Head of Department
Counselor at Sdr. Omme Skole

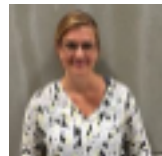

Helena Aunsborg Kristensen

Counselor
Lynghedskolen, Hejnsvig skole, Vorbasse skole and Filskov friskole

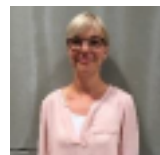

Carsten Søndersø Riemann

Counselor
Vestre skole, ISB, Integrationsklassen and 10. klassecentret

Trine Skov Jacobsen

Counselor
Billundskolen, Grindsted privatskole and 10. klassecentret

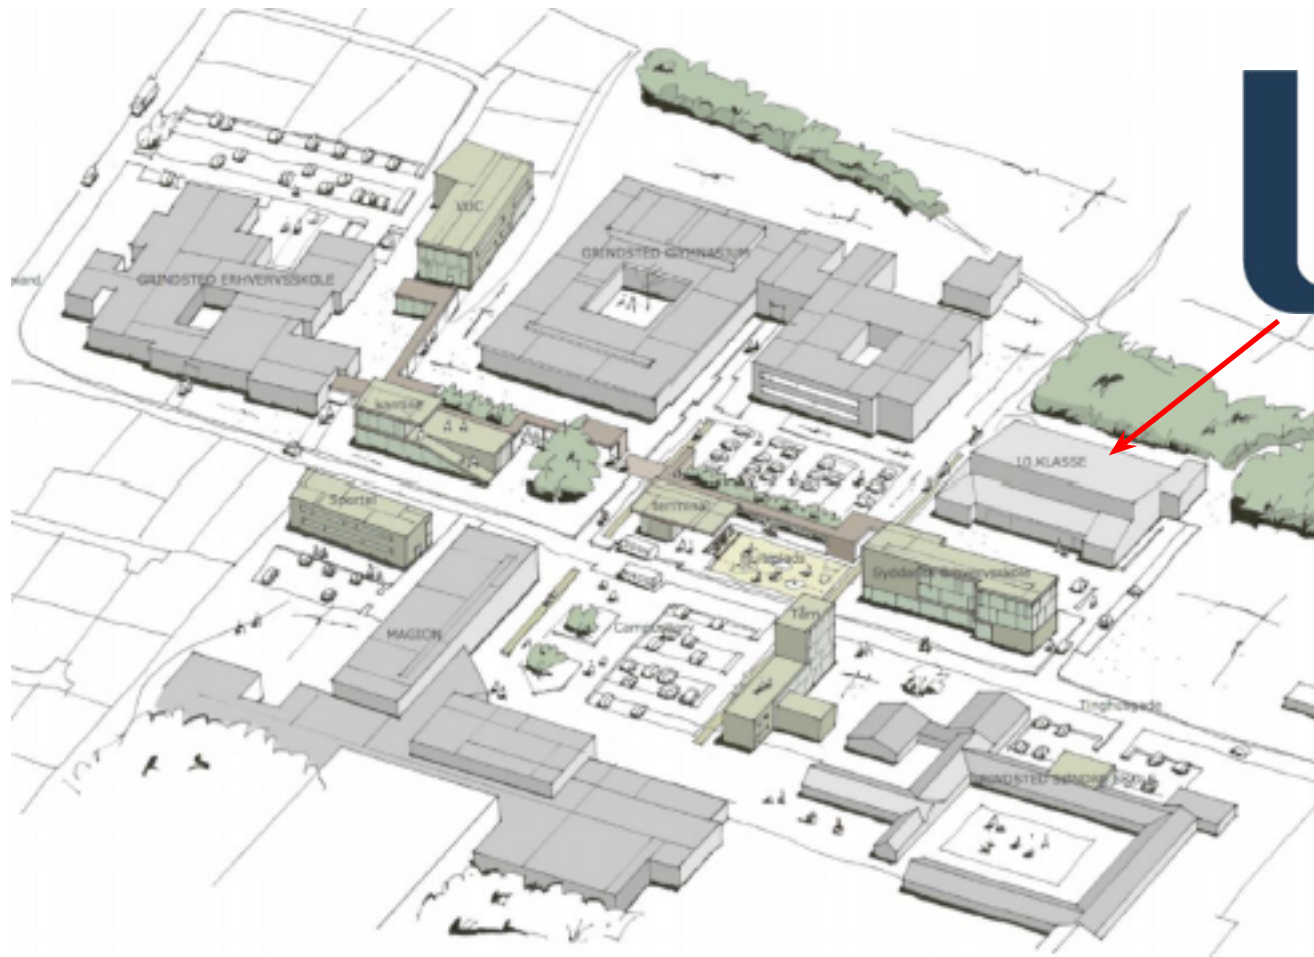

Pernille Holm

STU- og specialcounselor
Lynghedskolen, Vestre skole

Contact information at www.uubillund.com

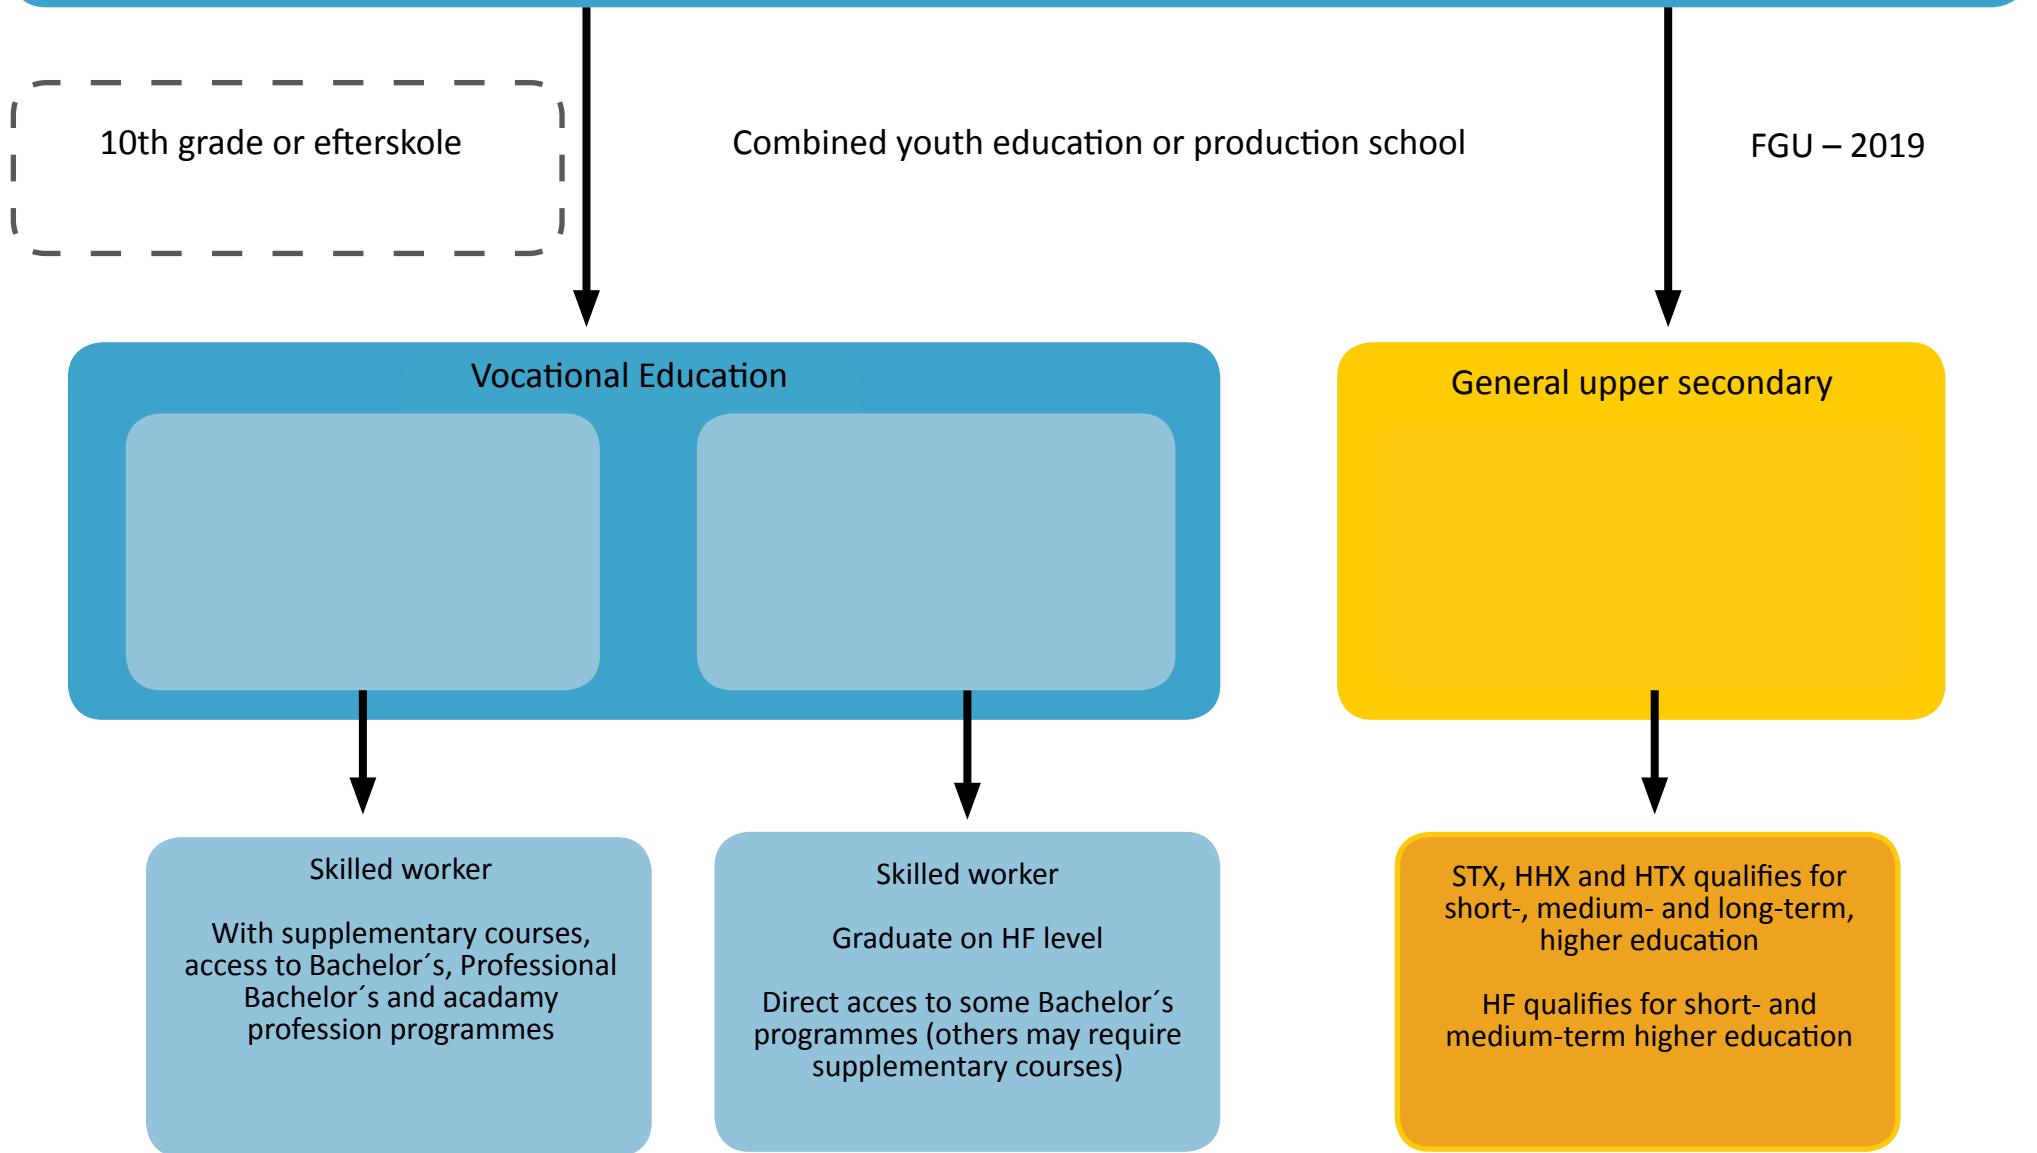

Where are we based?

What do we do?

- All pupils are offered counseling from UU Billund, individually and in groups
- Provide information regarding education and jobs
- Cooperate with teachers regarding the "readiness assessment"
- Attend parent- and school meetings, as necessary
- Coordinate visits
- We "follow" pupils until they finish their education or until they reach the age of 25 (sometimes 30)
- We don't decide for the pupil. We challenge, we support, and we provide the right information so the pupil makes the right choice!

Primary and lower education

EUD

Vocational education

Admission requirements

Assessment: ready
02 in Danish and Math

Transition demands

Vary according to education

Intro 1

Intro 2

Main course

Pupils from 9th to 10th grade

20 weeks

20 weeks

1-4 years

Others

20 weeks

1-4 years

Apprenticeship on
workplace

After completing the main course you are a skilled worker and can apply for a job within the given field.
(carpenter, plumber, chimney sweeper, butcher, painter, shop assistant, and many, many more....)

Four fields:

- Welfare, health and pedagogy
- Administration, commerce and business service
- Food, agriculture and hospitality
- Technology, construction and transportation

HHX, HTX, STX

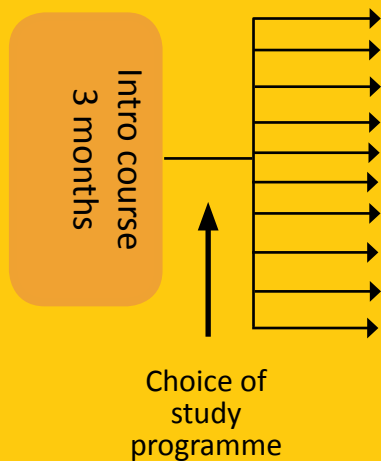

3-year upper secondary education

Model of Education

1st year

2nd year

3rd year

Specialised study programme

The 3-month intro is to introduce the student to the fields of the different study programmes and subjects and the types of further education, which the individual study programme aims at. After the 3 months the student chooses which study programme he/she wants to follow.

HF

2-year upper secondary education

Model of Education

1st year

1st semester

Intro

Compulsory subjects

2nd semester

Compulsory subjects

2nd year

3rd semester

Compulsory subjects

Elective subjects

4th semester

Compulsory subjects

Elective subjects

EUX

Vocational education with upper secondary subjects

Mercantile EUX-course

	Intro 1	Intro 2	Study skills	Main course
Pupils from 9 th to 10 th grade	20 weeks	20 weeks	1 year (School)	2-3 years
Others		20 weeks	1 year (School)	2-3 years

Study skills achieved after 1,5 – 2 Note the possibility to "get off"

All other EUX-courses

	Intro 1	Intro 2	Study skills	Main course
Pupils from 9 th to 10 th grade	20 weeks	20 weeks	3-4 years	
Others		20 weeks	3-4 years	

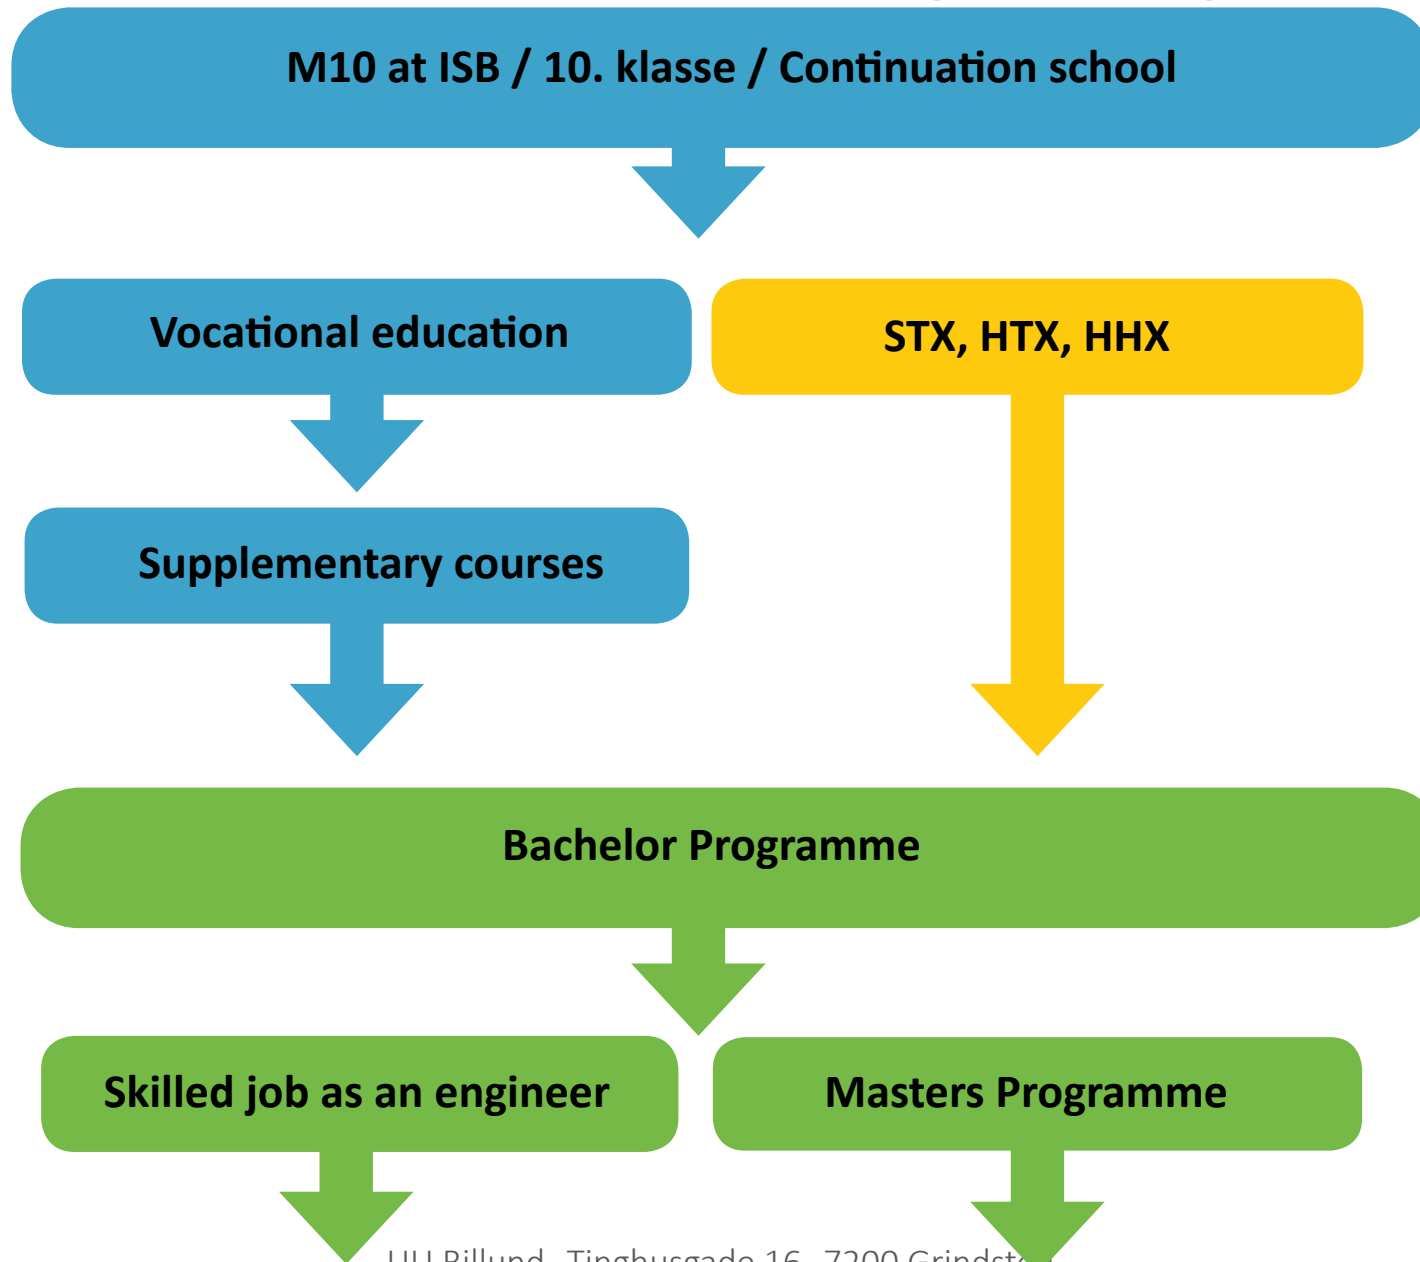

Study skills achieved after 4,5 – 5 years

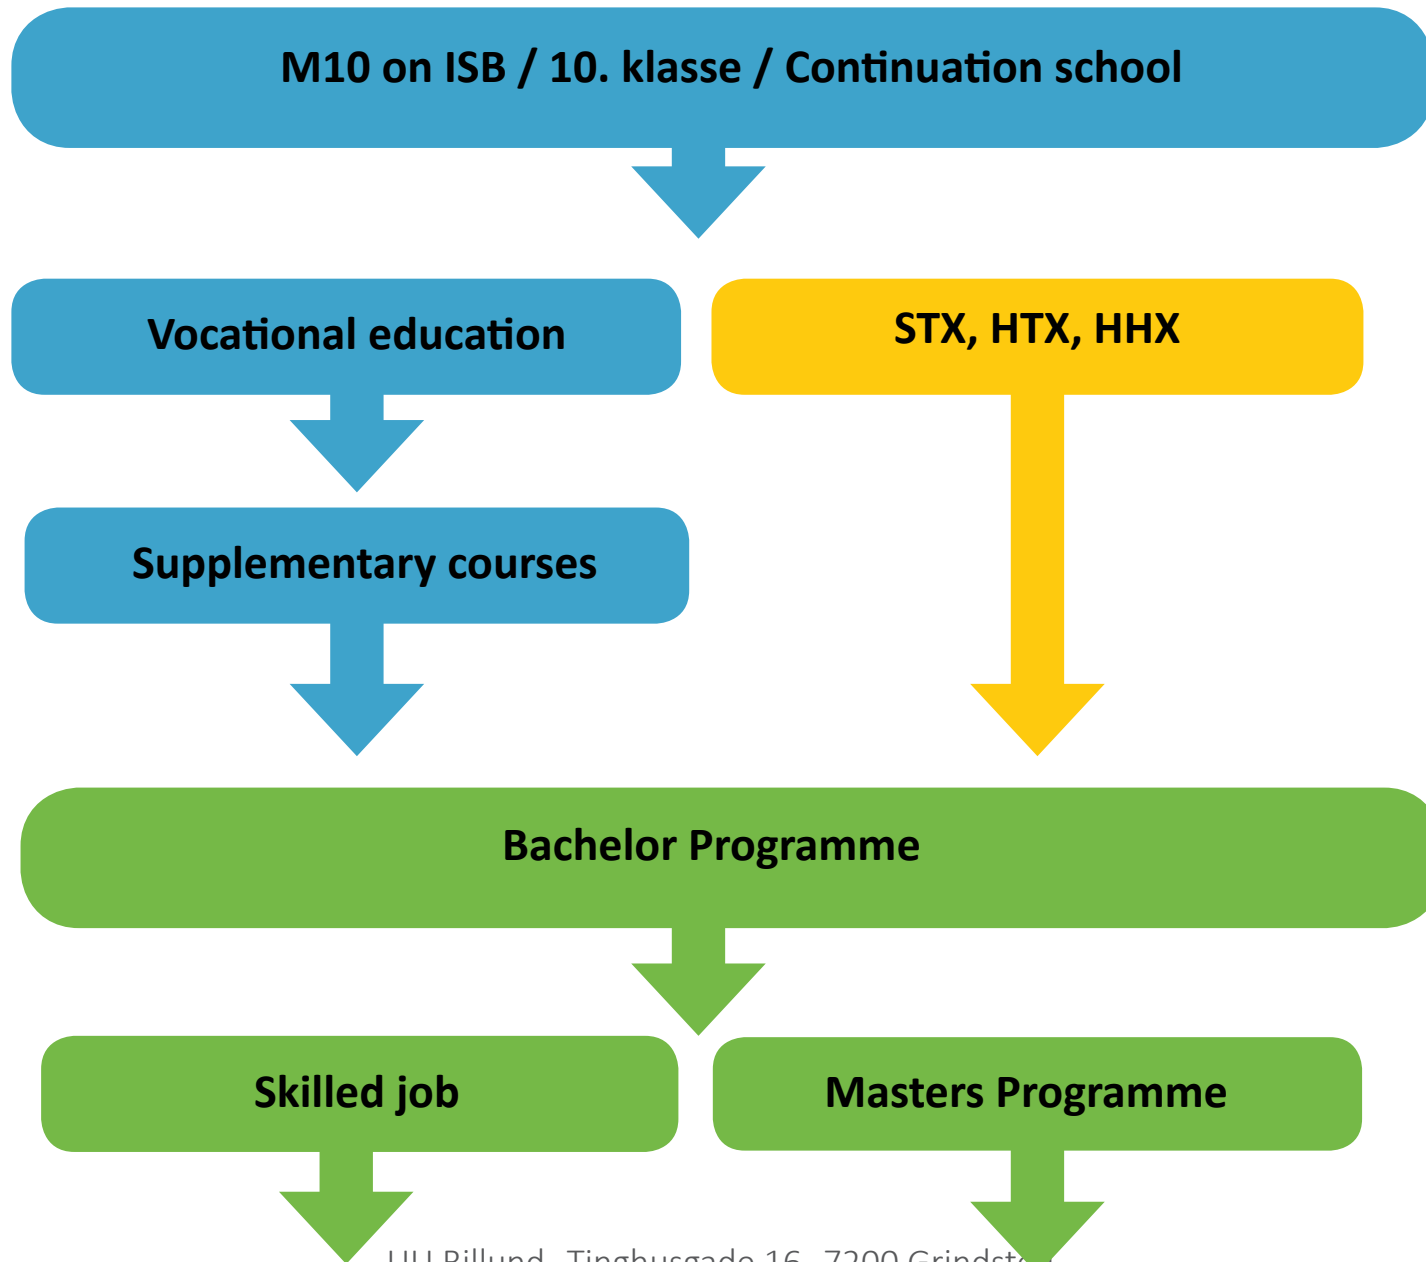

+

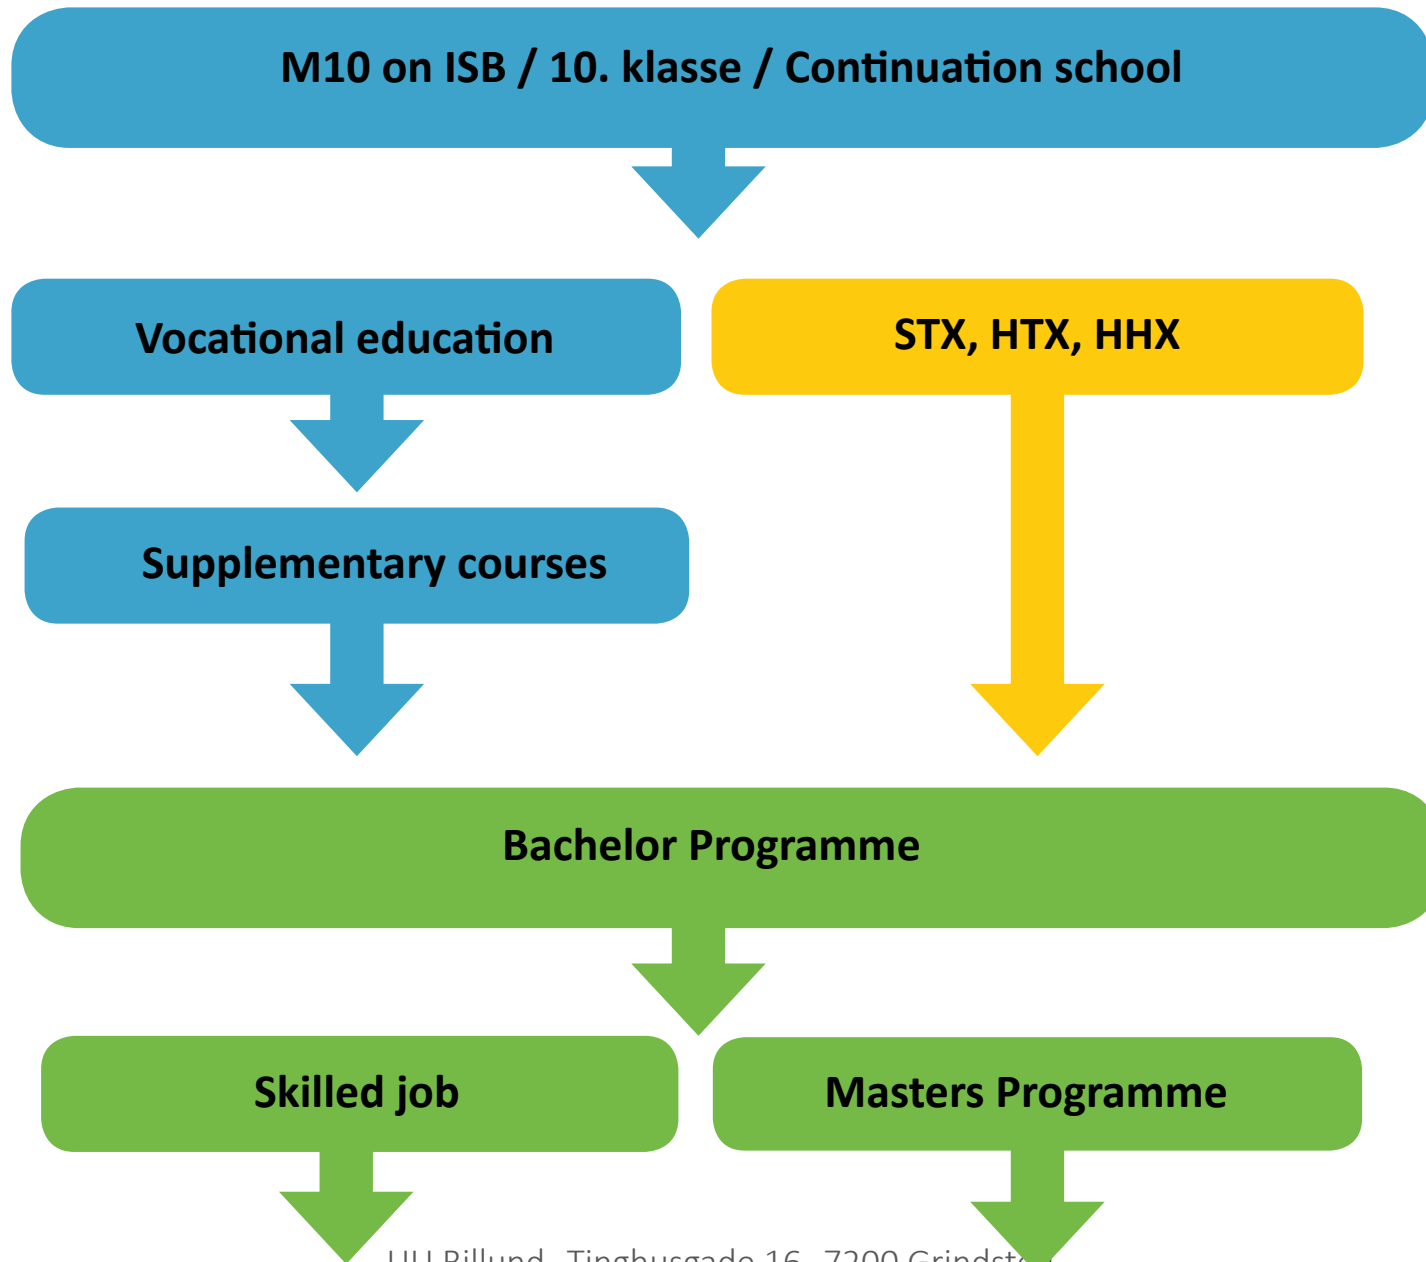

Examples: Bachelor in General Engineering

Medicine

Law

Martin Franck

Graduated 10th grade

Vocational education as a tool-maker at LEGO

First R&D job in the automotive industry

Supplementary courses, studied Mechanical Engineering in Aarhus

Bachelor in Mechanical Engineer in: heat transfer, cooling, thermodynamics, steel constructions, business economics, English and German

Senior Quality Director at Howal Denmark

**Research & Development
Director Stations
Danfoss – Ljubljana,
Slovenia**

Anders Kruse

Graduated 9th grade

STX - A level in Mathematics and English

Studied export engineering at DTU and in Hamburg

Civil Engineer in International Technology, Export and Management

HD in Organisations and Management Southern University

Danfoss Postgraduate Program in Business Development, Marketing and Sales

**Senior Director for
Hydronic Balancing Valves
Danfoss – Ljubljana,
Slovenia**

Both types of engineers are essential for Danfoss and similar companies:

“Without Martin – Anders has no products to sell, without Anders – Martin can’t sell his products.”

Educational readiness assessment

”Uddannelsesparathedsvurdering”

- Academically:
 - An average of 5.0 for 3-year upper secondary and 4.0 for 2-year upper secondary and vocational education*
- Personal skills:
 - Motivation
 - Independence
 - Responsible
 - Attendance / absence
- Social skills:
 - Cooperation
 - Conflicts
 - Respect and tolerance towards fellow pupils and teachers
- Practical skills
 - E.g. converting theory into products

*Please note that these demands are based on the Danish grading scale and only apply to students who have taken the Danish public school exit exams (“Folkeskolens afgangsprøve”). No official conversion yet exists, however a 5.0 GPA in Denmark roughly corresponds to a 4.0 in the MYP IB grading system. MYP students applying to a 3- or 2-year upper secondary education in the Danish system will have to take an entrance exam in Danish, maths and science (in Danish) and English. An interview will also be a part of the process.

Educational Readiness assessment "Uddannelsesparathedsvurdering"

- The teachers will make the assessment in M9 and M10
- The assessment will be available to you
- The assessment must be sent together with the application in March.
- The application is sent via optagelse.dk – I will show the M10 class how it works

JOB

FÅ INSPIRATION

Uddannelser til unge

10. klasse, erhvervsuddannelse, gymnasial uddannelse eller anden aktivitet.

Videregående uddannelser

Bachelor-, kandidat-, professionsbachelor-, erhvervsakademi-, kunstneriske eller maritime uddannelser.

Voksen- og efteruddannelser

Kurser, masteruddannelser, diplomuddannelser og enkeltfag.

Job

Der findes et utal af job på det danske arbejdsmarked. Her beskrives de mest almindelige af dem.

Tal om optagelsen

Lidt flere end sidste år har søgt optagelse på en videregående uddannelse.

Optag og ledige pladser

Læs om hvad du skal gøre, hvis du enten er blevet optaget eller vil søge en ledig plads.

Spørg en vejleder

eVejledning vejleder om uddannelsesvalg via chat, mail, sms og telefon.

I understand if you are confused. So are your children and so was I.

My advice is to ask your children, "What would you like to work with," not "What would you like to work as."

Contact information

You can always contact me with questions or for appointments
