

# PoP Celebration at ISB

Friday 10 May, 2019

## 8:00-10:00 Presentation

We will start with an introduction from Project Zero's Ben Mardell followed by free time to browse exhibits featuring work from all PoP study groups. A few ISB teachers will then facilitate a deeper dive into some of the specific research questions being studied at ISB.

If you will be joining us for this morning session, please RSVP: [play@isbillund.com](mailto:play@isbillund.com)

## 10:00-15:30 Open House

The exhibit will remain open to the public with Project Zero researchers and ISB teachers on hand to answer questions.

## Choice, Wonder, Delight

Each spring, ISB teachers and our friends from Project Zero gather to celebrate a year's worth of playful research generated as part of the Pedagogy of Play project.

Please join us in reflecting on some of the questions our PoP study groups have been exploring around the theme of choice, wonder, and delight.
