|  |  |
|--|--|
| <b>Advisory</b>                        | Homeroom teachers will engage students in current affairs, discussions on topics of interest and provide practical information regarding the MYP programme such as Service as Action, student reflections and Approaches to Learning.  |
| <b>English</b>                         | English Language & Literature lessons are taught by Pandora Ogg.   |
| <b>Danish</b>                          | Danish is taught at two levels: Danish acquisition and Danish Language & Literature. Danish acquisition is taught by Marianne Hjørngaard and Marc Thorup. Danish Language & Literature lessons are taught by Dino Avdibegovic  |
| <b>Language Acquisition</b>            | The ability to communicate in more than one language is essential to the concept of an international education. In MYP we offer Spanish and German. Spanish lessons are taught by Mario Casas. German lessons are taught by Bo Skibelund   |
| <b>Individuals &amp; Societies</b>     | This subject encourages learners to respect and understand the world around them by inquiring into the historical, contemporary, geographical, political, social, economic, religious, technological and cultural factors that affect individuals, societies and environments. Taught by Tue Rabenhøj.         |
| <b>Mathematics</b>                     | MYP mathematics aims to equip all students with the knowledge, understanding and intellectual capabilities to address further courses in mathematics, as well as to prepare those students who will use mathematics in their studies, workplaces and everyday life. Taught by Megan Baldwin.                   |
| <b>Science</b>                         | Scientific inquiry fosters critical and creative thinking about research and design, and teaches students to respect the ideas of others, gain ethical-reasoning skills and develop their sense of responsibility as members of local and global communities. Lessons are taught by Sofia Karlsson.            |
| <b>Design</b>                          | The MYP uses the design cycle as a way to structure the analysis of problems and the creation of feasible solutions. In MYP design, solutions can be models, prototypes, products or systems that students have developed and created independently. Lessons are taught by Megan Baldwin.                      |
| <b>Visual Arts, Music &amp; Drama</b>  | Arts stimulate young creative minds, challenge perceptions and develop creative and analytical skills. Involvement in the arts and understanding of art history supports the development of an inquiring and empathetic world view. Lessons are taught by Awanti Seth-Rabenhøj, Mario Casas and Karli Winters. |
| <b>Physical &amp; Health Education</b> | Physical and health education courses foster the development of a healthy lifestyle and offers many opportunities to build positive interpersonal relationships. Lessons are taught by Liviu Sadoveac and Maja Milisavljevic.  |
